

PhD Workshop
«Doctoral Research on Information Technologies
Related with Digital Libraries»

Dubna, October 13–16, 2014

Deadline for extended abstracts submission – May 15, 2014

The workshop «Doctoral Research on Information Technologies Related with Digital Libraries» will be co-located with the 16th Russian scientific conference «Digital Libraries: Advanced Methods and Technologies, Digital Collections» - RCDL-2014.

The Workshop has been oriented to young scientists making doctoral research on technologies of digital libraries and another topics of information technology related with digital libraries.

The major objectives of the Workshop are as follows:

- To present recent results and ideas of the research to more experienced colleagues
- To discuss virtues and shortcomings of the research as well as its future directions
- To establish contacts for scientific collaboration
- To advance skills of presentations at scientific conferences.

The participants of the Workshop will be able to take a part at other events of the RCDL-2014 Conference. The list of topics of the conference and other information for participants are represented on the RCDL-2014 site <http://rcdl2014.jinr.ru/>.

Important dates

- The acceptance deadline for extended abstracts – **May 15, 2014**.
- Authors will be notified on the status (accepted / rejected) - before **June 15, 2014**.
- The deadline for submission of the full text of accepted papers ready for publication – **August 6, 2014**.

Requirements for papers and extended abstracts

- The paper presented personally by the research author should be dedicated to an original work not published previously (the work may have different levels of completeness)
- The extended abstract should be not less than 3-5 pages of length and should contain a detailed description of goals of research, used approach and its comparisons with related approaches of other researchers, recent results and the list of references.
- The abstract and paper should be written in English or Russian
- A style of formatting of extended abstracts and full papers should correspond to requirements published at the RCDL-2014 site.

Extended abstracts should be submitted to the Program Committee through the Conference site with preliminary registration.

It's supposed that authors will enhance texts of their papers and personally present them during the Workshop.

Publications

The Workshop Proceedings will be published as a collection of full accepted papers and short presentations as well as an electronic publication at the Conference Web-site. Research papers in Russian or English proposing new scientific results are planned to be published as an electronic conference proceedings on the site [CEUR Workshop Proceedings](#) widely used for publishing of

international workshop proceedings. The best Workshop papers will be recommended for publishing in journals certified by the State Commission for Academic Degrees and Titles (VAK).

Venue and dates of the PhD Workshop

Workshop will be held in Dubna (Russia) at October 13 - 16, 2014. More detailed information is placed at the [RCDL-2014](#) Conference site.

Programme Committee

Alexander Elizarov (chair) - Kazan (Volga Region) Federal University

Pavel Braslavsky - Ural Federal University, Kontur Labs, SKB Kontur

Boris Dobrov - Research Computing Center of Lomonosov Moscow State University

Alexander Fazliev - Institute of Atmospheric Optics of SB RAS, Russia

Leonid Kalinichenko - Institute of Informatics Problems of RAS

Mikhail Kogalovsky - Market Economy Institute of RAS

Vladimir Korenkov - Joint Institute for Nuclear Research

Sergei Kuznetsov - Institute for System Programming of RAS

Nataly Lukashevich - Research Computing Center of Lomonosov Moscow State University

Boris Novikov - Sankt-Petersburg State University

Vladimir Smirnov - Demidov Yaroslavl State University

Leonid Sokolinsky - South Ural State University

Sergei Stupnikov - Institute of Informatics Problems of RAS

Valery Vasenin - Lomonosov Moscow State University, Institute of Mechanics

Viktor Zakharov - Institute of Informatics Problems, RAS

Sergey Znamensky - Ailamazyan Program Systems Institute, RAS
